Strategic Roadmap Overview

Enterprise Services Delivery (ESD) Team

ESD Strategic Project Roadmap View

- New projects and updates on major milestones
- Subset of 127 projects in the project portfolio
 - Long-term and large-scale modernization projects
 - IT system (ERP) migrations and configurations
 - Integrated projects across multiple agencies

BENEFITS OF HIGH-LEVEL STRATEGIC ROADMAP

Develop enterprise strategy for agencies and systems, identify risks and integration points

Identify times of potential change saturation

Improve financial management and facilitate budgeting process

Identify economies of scale

Build desire for change and share lessons learned across agencies

Develop competency centers for project management, business analysis

Estimate break-even and ROI

Reorient projects/agencies toward outcomes, rather than competing for resources ("silo mentality")

CONTRACTOR FOCUS ACCESS & CRIMINAL HISTORY CENTRALIZATION PROJECT

Department of Services for Children Youth and
their Families (DSCYF)

Overview

- What is the issue/problem being addressed?
 - The process of granting contractor access to FOCUS was decentralized among many different DSCYF employees and created safety and compliance concerns, including missed criminal background checks.

- What is the desired outcome?

CENTRALIZATION!

- Contracts unit will ensure criminal history process is completed for all new contractors and contractor staff
- Contracts unit will ensure contractor notifies them immediately when staff are hired or leave employment; in turn, Contracts unit will maintain FOCUS Persons upon notification and during quarterly audits
- Implement new Provider Information & FOCUS Access Form
- Contracts Unit will manage & track forms

Background

Why is this project important?

- Security of information in the FOCUS system regarding children and families
- Safety of children and families by ensuring Criminal Background Checks are completed
- Contractor compliance with contractual obligations

What is the significance of this project?

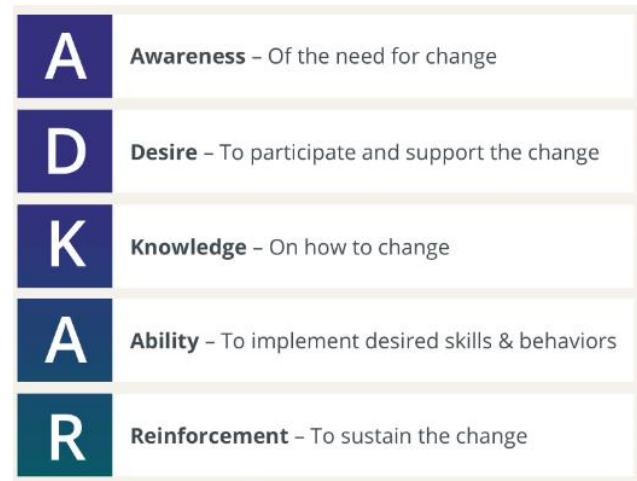

- Major change from spaghetti plot model to centralized model
- Very time sensitive & high priority per Division leadership

Progress

- What is completed on this project?
 - Fully implemented as of 11/1/2022
- What is the progress toward goals, and the estimated measurable outcomes?
 - Goal is to ensure that 100% of Contractor FOCUS access forms are filtered through Contracts Unit
 - Measurable outcome will be minimal rejections or re-work upon submission
 - No target metric established yet

Next Steps

- What are the next steps in this project?
 - Continue to refine the process and the request form, based on group feedback.
 - Reinforce changes through use of Prosci's ADKAR® Model

- What is the timeline for completion?
 - Considered complete and in the “R” stage

Challenges

- Obstacles/barriers to the next steps or the project as a whole?
 - Rushed to deployment due to safety and compliance concerns
 - Led to significant and ongoing after-the-fact refinements to the process and form
 - Contractors are accustomed to dealing with their usual people at DSCYF, so need consistent re-direction to the Contracts unit

GEAR Board Ask

- What does the project need from the GEAR Board?
 - Anyone with expertise in electronic forms and various options for making it more universally user-friendly.
 - THANK YOU!
 - DTI for assistance with the Salesforce product
 - GEAR and DHR for the CIP program
 - Started using tools immediately
 - Increased my network of statewide like-minded colleagues
 - Gave me the confidence to pursue an exciting promotional opportunity at DSCYF

DELAWARE'S CARRYING CONCEALED DEADLY WEAPON (CCDW) LICENSING RECONSTRUCTION

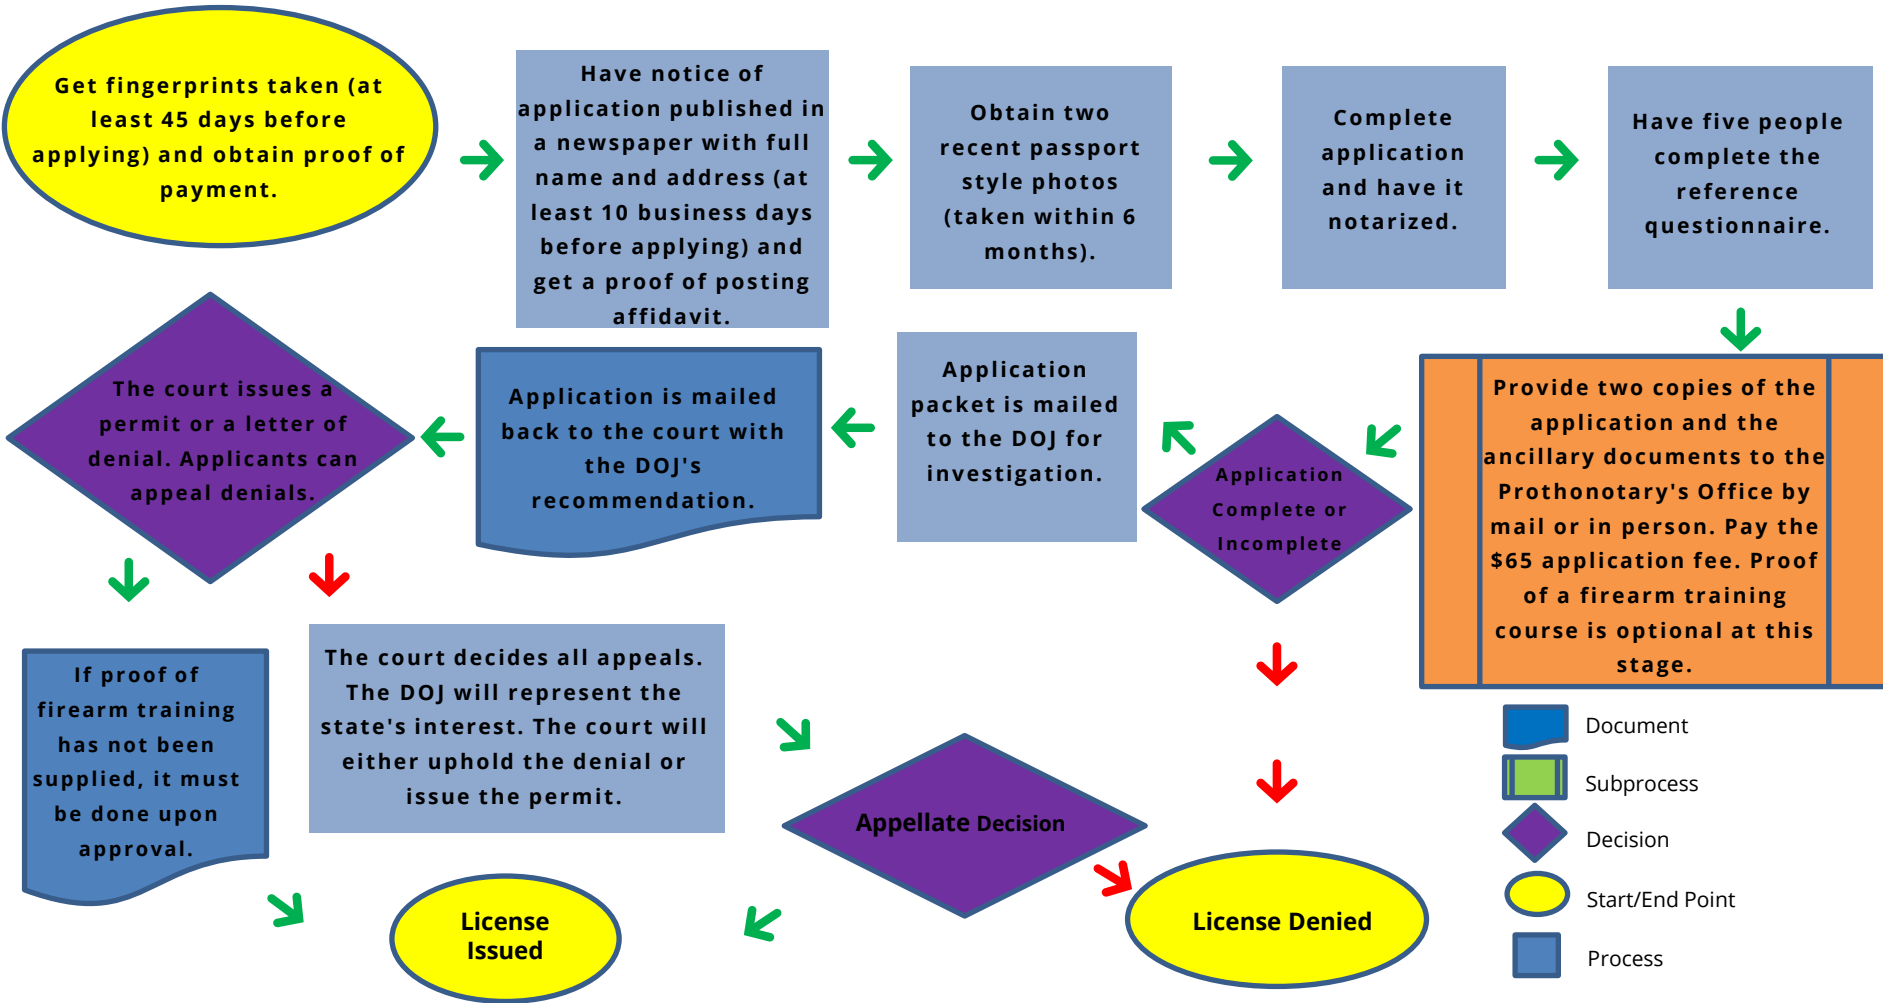

Department of Safety and Homeland Security (DSHS)

Overview

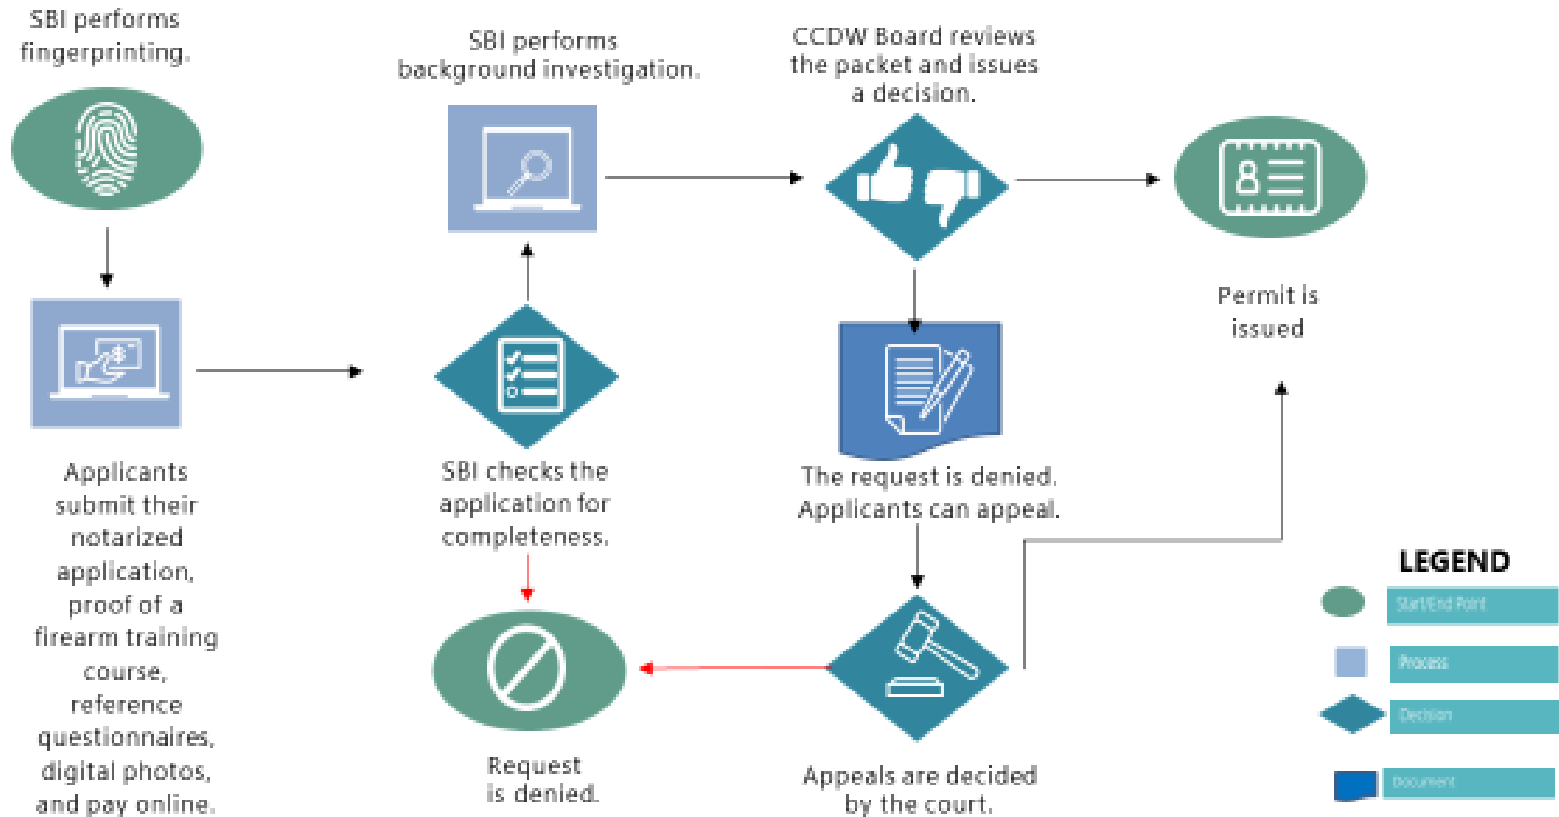

Superior Court is responsible for granting Concealed Deadly Weapon Permits in Delaware after the Attorney General's Office investigates and recommends the application.

- The current CCDW approval process, adopted in 1993, is a slow, antiquated system that is inadequate to handle the volume of requests received. Current Backlog: 4 - 6 months.
- Requests have vastly increased since the beginning of the pandemic and politicization of gun rights groups.
- The lack of digital inputs makes tracking and data analysis needlessly difficult.
- The paper-bound system requires in-person operations and thus, was not able to function during the early stages of the pandemic.

Current CCDW Workflow

Proposed CCDW Workflow

Progress – Quantifiable Outcomes Achieved or Targeted

Completed:

- Review of the current process and communication with Stakeholders (DOJ, Courts, DSHS, Legislature)
- Current timelines and backlogs
- Current DATA sets
- Current and Proposed Workflows

In Progress:

- Development of new processes
- Fiscal Note
- New Legislation
- FTAP
- Continued meetings with Stakeholders

Challenges

- Failure to adequately assess number of applicants
- Adding more time to the approval process
- A large increase of applicants due to improved efficiency
- Cybersecurity
- Systemic failures

Next Steps – Firearm Transaction Approval Program (FTAP)

HB423 an ACT to Amend Titles 11, 16, 24, and 29 of the Delaware Code relating to background checks for firearm sales, transfers, or **concealed carry permit**.

- **Subchapter VI. Firearm Transaction Approval Program (FTAP).**

Section 2. Amend § 1441, Title 11 of the Delaware Code by making deletions as shown by strike through and insertions as shown by underline as follows:

§ 1441. License to carry concealed deadly weapons.

(a) A person of full age and good moral character desiring to be licensed to carry a concealed deadly weapon for personal protection or for the protection of the person's property may be licensed to do so when the following have been strictly complied with:

(1) The person shall make application therefore in writing and file the same with the Prothonotary of the proper county, at least 15 days before the then next term of the Superior Court, clearly stating that the person is of full age and that the person is desirous of being licensed to carry a concealed deadly weapon for personal protection or protection of the person's property, or both, and also stating the person's residence and occupation. The person shall submit together with such application all information necessary to conduct a ~~criminal history~~ background check. The Superior Court ~~may a criminal history background check pursuant to the procedures set forth in~~ shall conduct or cause to be conducted a background check through the Firearms Transaction Approval Program under Subchapter VI of Chapter 85 of Title 11 this title for the purposes of initial and renewal licensing of any person pursuant to under this section.

Next Steps - FISCAL

Summary Synopsis of FTAP Implementation Costs

FTAP Program	Year One	Year Two
Personnel Costs (on-going)	\$1,789,255.69	\$1,842,933.37
Sworn Support Costs (one-time)	\$453,795.42	\$0.00
Office Equipment (one-time)	\$164,739.60	\$0.00
On-going Costs (Lease/licensing)	\$328,100.00	\$334,662.00
IT Costs (one-time)	\$1,050,000.00	\$0.00
Total Amount Needed	\$3,785,890.71	\$2,177,595.37

**Figures are subject to 7.5% inflation*

GEAR Board Ask

- The present project is in a “Holding Pattern”.
- The eventual re-institution of the FTAP Unit at SBI may alleviate the proposed workflow by the GEAR Team.
- FTAP MAY take over the CCDW Licensing.
- However, the identification of the CCDW Reconstruction need by the GEAR Team has put ideas into motion.
- Updated protocols are still being visited.
- The project appears to be a success.

Questions?

- **Open Topics Discussion – Board**
